ICY BOX **IB-MS612-W**

Monitor stand with wall mount for a monitor up to 24" (61 cm)

Requirements

The bracket is suitable for monitors with a screen diagonal up to 24" (61 cm) and the VESA standards 100x100 and 75x75. It is important that these should not exceed a maximum weight of 10 kg.

With firm hold

The wall mount allows the IB-MS612-W to be attached to walls. The ingenious design ensures a uniformly distributed weight and firm hold on the wall.

Movable

No matter how you like to work - the different joints can be moved in many angles. This allows the monitor to be aligned exactly as required. A full rotation of 360° is possible, just like adjusting the height, inclination or distance to the wall.
