## Holy moly

Whoever modified an important file and saved it incorrectly wishes a write protection for the device. With the IB-1815WP-C31, sensitive data can now be protected against changes and released again by switch. Thanks to USB 3.1 (Gen 2) technology, this is done with a transfer rate of up to 6 Gbit/s specified by SATA III.

### Safe with just one click

Rarely was it easier to protect storage media and the data stored on them from unauthorized or undesired writing operations. With the handy mini tool supplied and a small hand movement, the switch on the IB-1815WP-C31 can be moved to the desired position. Click - Safe.

### Red

The IB-1815WP-C31 makes it easy to know which mode it is in. The deep red LED indicates the activated write protection and thus prevents any attempt to start copying data incorrectly.

### It fits like a glove

This enclosure is not cast, but milled from one piece of aluminium via CNC. This manufacturing process allows highest precision and gives the IB-1815WP-C31 a high quality. Thanks to its slim design, the enclosure fits in every pocket and is therefore the perfect companion in the office and at home.
