Hub for new and old

This ICY BOX Type-C™ hub extends a USB 3.0 Type-C™ port to your PC, notebook or mobile device by adding 3x USB 3.0 ports for external hard drives, card readers, USB sticks, printers, keyboards and many more classic USB devices. It also has a USB Type-C™ port to ensure that no USB Type-C™ port is lost when using the hub.

ICY BOX **IB-HUB1407-C** Type-C™ to Type-C™ & USB 3.0 Hub

Type-C™

USB 3.0 Type-C™ ports have two distinct advantages over the traditional USB plugs. They are smaller and therefore ideal for thin laptops and mobile devices and it is no longer necessary to insert the connector in a particular orientation. It always fits and thus saves the user a lot of small annoyances when connecting devices.

All inclusive

The IB-HUB1407-C does not only have three high-speed USB 3.0 connectors, but also one USB Type-C™ connector, that means more USB Type-C™ devices can be connected even when the hub is in use.

Additional power supply?

The hub comes with a power supply that can be used when many devices are connected and require a high amount of power. And the best thing is, the built-in USB connection cable can not be moved. This makes the IB-AC1407-C the perfect companion on the road.
