1x IB-HUB1414-C3, 1x quick installation guide

## In for an A, in for a C

We are becoming more and more flexible in today's society - we work on the move and always have our notebooks with us. So the accessories also have to adapt. The slim design, its low weight and integrated cable of the IB-HUB1414-C3 make the hub the ideal mobile companion, each with two of the USB Type-C™ and two USB Type-A connections.

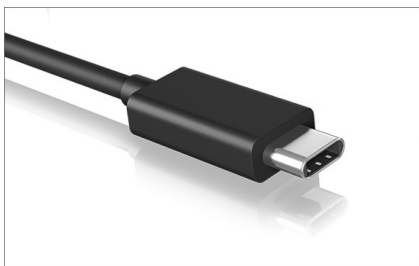

### Technical data

# ICY BOX **IB-HUB1414-C3** USB 3.0 Type-C™ hub with Type-C™ and Type-A USB ports

## There is also a simple way

USB 3.0 Type-C™ ports have two distinct advantages over the traditional USB plugs. They are smaller and therefore ideal for thin notebooks and mobile devices and it is no longer necessary to insert the connector in a particular orientation. It always fits and thus saves the user a lot of small annoyances when connecting devices.

## 50-50

The middle does the trick - and the IB-HUB1414-C3 demonstrates it. It has two USB Type-C™ as well as two Type-A connectors and keeps the balance between the longstanding connections and those that are now establishing. This makes it the perfect companion for existing equipment as well as for equipment purchased in the future.

## Not only useful but handsome

Devices that we use every day should not only work, but also appeal to us visually. The IB-HUB1414-C3 with its beautiful cut on the top side of the high-quality aluminium housing would like to please us here - and reaches this goal very well.
