ICY BOX **IB-HUB1201-C** 2 Port USB 2.0 Type-A hub with USB Type-C™ host interface

The new standard

USB Type-C™ ports have two distinct advantages over the existing forms. They are smaller and therefore ideal for thin laptops and mobile devices and it is no longer necessary to insert the connector in a particular orientation. It always fits and thus saves the user a lot of small annoyances when connecting devices.

The classics

Two USB Type-A devices can be connected to the IB-HUB1201-C; You can use a mouse and a keyboard on a single USB Type-C™ connector for example.

Twist-proof

The two USB Type-A connectors - as well as the Type-C™ connection - are twist-proof. This means the plug will always fit on the first attempt, no matter what you want to connect.
